Profile

I'm a committed and communicative software developer currently pursuing MS in Computer Science from USC, with 2+ years of experience. In a fast paced service based sector, I worked on projects of different domains. Excellent problem solving capabilities and a team player. The solutions produced have reduced the demand of implementation process and the budget by ~35%. I have a positive attitude and am excited to learn new techniques.

Experience

Senior Project Engineer, Wipro Limited, Bengaluru, India: Dec'19 - Jan'21
Responsible for the end to end development of web applications as well as server management portal. Development shell and batch scripts for automation of tasks.

Project Engineer, Wipro Limited, Bengaluru, India: July'18 - Dec'19
Planning, and implementation of DevOps for SAP landscape. Development of intermediary layers between the SAP and non-SAP scopes for easier DevOps implementation.

Intern, ABB GISPL, Bengaluru, India: May'17 - July'17
Creating Small Information System (SIS) to communicate to a Robot Controller to read and write robot running data, and process data, display them as part of HMI and save it for future reference. Usage of ABB's own PC-SDK for development.

Intern, NIIT Technologies, Greater Noida, India: Dec'16
Development of automated scripts which takes care of logs, retrieval, processing, and storage.
